SUMMARY

Java Backend Developer with hands-on experience in building RESTful services and database-driven applications using **Core Java, MySQL, and backend frameworks**. Strong foundation in **OOP principles, collections, exception handling, and basic multithreading**. Currently working as a **Freelance Software Developer**, delivering backend APIs and full-stack solutions. Seeking a junior Java Developer role in a product-based engineering environment.

TECHNICAL SKILLS

Programming Languages

- Java (JDK 8+) – OOP, Collections, Exception Handling, Multithreading
- JavaScript

Backend Development

- RESTful API development
- JWT-based authentication
- Backend validation & error handling

Database

- MySQL
- MongoDB
- SQL queries, schema design

Frameworks & Tools

- Spring Boot , React js
- Node.js, Express.js
- Git & GitHub
- Postman

Development Practices

- GitHub-based version control and collaboration
- Branching, pull requests, code reviews
- GitHub Issues for task tracking
- Agile development exposure

WORK EXPERIENCE

Freelance Software Developer | Mar 2025 – Present

- Developing backend services and REST APIs for small-scale applications using **Node.js, Express, and MongoDB/MySQL**.
- Designing and implementing authentication and authorization mechanisms using **JWT**.
- Working independently on requirement analysis, API design, development, testing, and deployment.
- Collaborating remotely with clients to deliver scalable and maintainable backend solutions.

Mitrahsoft Solutions Private Limited | Sep 2024 – Mar 2025

- Contributed to backend logic and REST API integration for internal enterprise applications.
- Developed and consumed APIs to support application workflows and frontend-backend communication.
- Worked with **Java-based backend services** and **MySQL databases** for data persistence and retrieval.
- Used **Git and GitHub** for collaborative development and issue tracking.
- Assisted in debugging backend issues, resolving API failures, and improving response handling.
- Participated in code reviews to improve code quality, readability, and maintainability.

EDUCATION

Bachelor of Engineering (B.E.) – Electronics and Communication Engineering

Tagore Institute of Engineering and Technology

CGPA: 8.02/10

CERTIFICATIONS & TRAINING

- **Java Full Stack Developer** – Besant Technologies

ACHIEVEMENTS & LEADERSHIP

- Served as **Class Representative**, actively participating in department cultural activities.
- Received an **experience certificate from Hindustan Petroleum Corporation Limited** for developing an automation tracking website.

SOFT SKILLS

- Problem-Solving
- Team Collaboration
- Time Management
- Adaptability
- Strong Communication

PERSONAL DETAILS

- **Languages Known**: English, Tamil
- **Availability**: Open to relocation and remote opportunities
